

## 2015 Small Quilt Crayola Challenge

1. This Challenge is limited to Glendale Quilt Guild members.
2. Each participant will draw two crayons from a bag, starting at the August General meeting. Those colors and their various shades will be the only colors allowed for your fabrics and embellishments.
3. The theme is the maker's choice.
4. The quilt must be 15" x 20" with either a vertical or horizontal orientation.
5. The quilt must have a top, batting, and back (3 layers). The maker may use any quilt method.
6. The actual crayons must be attached to the front of the quilt, either temporarily or permanently.
7. Entry forms will be available on the GQG website.
8. Entry acceptance begins December 1, 2014.
9. **Entry Deadline:** January 12, 2015.
10. Awards will be given for 1st, 2nd, and 3rd place.
11. All quilts will hang at the 2015 Glendale Quilt Guild Show.

### Crayola Trivia - Did You Know?

- ~ Crayola is proud to make the great American crayon, a quintessential school supply, right here in the USA.
- ~ Crayola believes the nation's children will become the next creative thinkers, dreamers and inventors. They need the best tools to bring their original ideas to life.
- ~ After noticing a need for safe, high quality, affordable wax crayons, in 1903, Crayola produced the first box of eight crayons and sold them for 5 cents.
- ~ From the 8-count all the way up to the 120-count box, the company's regular-sized crayons, including reds, whites, blues and every color in-between are all made in Easton, Pennsylvania by a dedicated workforce that is 1,200 strong.
- ~ Crayola makes their crayons using the finest pigments for intense color, and is a special blend of paraffin wax for smoothness and clay for strength.
- ~ At the manufacturing facility in Pennsylvania, Crayola makes 650 crayons per minute and up to 13.5 million crayons a day!
- ~ More than 400 different crayon colors are made, including favorites such as burnt sienna, carnation pink and midnight blue.
- ~ On average, the company makes 3 billion crayons a year, enough to circle the world six times.
- ~ In addition to being made in America, Crayola's crayons have gotten greener. A solar farm located in Forks Township, PA provides enough power to make 1 billion of 3 that it produces each year. Each box has a sun icon, letting parents, teachers and children know that Crayola crayons are now made by the sun.
